Light is what Consciousness is made of. It's what Consciousness is. The Living Light of Love.

It is not an artificial light. It is Life Light.

In duality, in the world,
light and dark
are needed
in equal measure
to create a balance of opposites
through which we may
live our lives.

The sun light to grow
the seed,
up to
the Sky

the darkness in which
it resides in the soil,
and roots down
into the Earth.

But in Spiritual Philosophy-
and indeed, the higher-order Reality
that it points to-
Light is the Essential Truth.

All is born of Light.
Exists in Light.
Returns to it.
Life is Light.

We are Living Light.
The living Light of Love.
What this means-
is for you to discover.

Darkness is merely
Light's absence or obscuration;
the condition of the places
where it is blocked.

Darkness
is nothing in itself-
however forceful
its influence in the world.
